

MaNEP internal workshops 2008 – SHORT PROGRAMME

Monday January 14, 9H00-18H00

Project 1 : «Strongly interacting electrons, low-dimensional and quantum fluctuation dominated systems» : Project leader : M. Sigrist

Tuesday January 15, 9H00-18H00

Project 2 : Superconductivity, unconventional mechanisms and novel materials
Project leader : D. Van der Marel

Wednesday January 16,

9H00-12H00: Forum meeting

14H00-18H00: Project 4 : Novel materials :Project leader : J. Hulliger

Thursday January 17, 2008

9H00-13H00: Project 5 : Thin films, artificial materials and novel devices

Project leader : J-M. Triscone

14H00-18H00: Project 6 : Industrial applications and pre-application development

Project leader : Ø. Fischer

Friday January 18, 2008

9H00-12H00: Project 3 : Crystal growth : Project leader : L. Forrò

REMINDER: Those who receive MaNEP money for a project are requested to be present. If it is impossible for you to attend, you may ask a senior member well informed about your contribution to the project in order to represent you.

If you have results to report to a project for which you did not get MaNEP funds, we strongly encourage you to participate to the corresponding Workshop. In this case, please let us know!

Thanks to,

Reserve the date(s) to attend the Internal Workshop(s) of the project(s) you are participating to, and the Forum meeting

Send me back ASAP the title of your contribution(s) (*for your information, we join some meeting programs of the last year*)

Let us know as soon as possible the hotel reservation you need, so we can book a room for you
