Summer internships 2021 in Physics

Are you a 3rd or 4th grade student in Physics ?

Take the unique opportunity to work for a month in one of the top research teams affiliated to the **MaNEP** Network.

MaNEP Switzerland is a network federating scientists, researchers and students working in Swiss universities, institutes of technology, engineering high schools or industry, and interested in novel quantum matter and devices.

Interested ?

Visit www.manep.ch/education/summer-internships/ and contact the **MaNEP** project leaders in the network you are interested to work with.

Applications must be submitted by June 7th 2021.

Financial support will be allocated to the selected candidates.

Internships will take place between July and September.
